Professional Summary

- Senior Backend Engineer with 8 years of experience designing high-availability services and data-intensive APIs.
- Expertise in Java, Spring Boot, Kafka, PostgreSQL, and distributed system design.
- Experienced in mentoring engineers, improving platform reliability, and leading backend architecture decisions.

Skills

Backend:

Java, Spring Boot, REST APIs, Microservices

Messaging:

Apache Kafka, RabbitMQ

Databases:

PostgreSQL, Redis, Elasticsearch

Cloudanddevops:

AWS, Docker, Kubernetes

Practices:

System Design, Code Reviews, Observability, Agile

Work Experience

Senior Backend Engineer at OrbitPay Systems

Bristol, UK | Jun 2021 - Present

- Designed event-driven payment settlement services using Spring Boot and Kafka.
- Improved service availability by introducing circuit breakers, retries, and structured monitoring.
- Mentored five engineers on API design, test strategy, and production debugging.

Backend Software Engineer at BlueAnchor Platforms

Cardiff, UK | Apr 2018 - May 2021

- Built customer identity and account services for a financial SaaS product.
- Reduced reporting job runtime by 37% through database tuning and batch processing improvements.
- Implemented integration tests for core API contracts.

Java Developer at HarborTech Consulting

Birmingham, UK | Aug 2016 - Mar 2018

- Developed Java web services for logistics and inventory clients.
- Created data validation modules and maintained SQL reporting procedures.
- Collaborated with QA teams to resolve release-blocking defects.

Projects

Settlement Stream Processor

Tech Stack: Java, Spring Boot, Kafka, PostgreSQL

Built a transaction settlement processor with event ingestion, reconciliation, and audit logging.

Inventory Search API

Tech Stack: Spring Boot, Elasticsearch, Redis, Docker

Developed a low-latency inventory search service with caching and faceted filtering.

Education

B.Sc. in Computer Science - University of Bristol

Bristol, UK | 2012 - 2016

Certifications

- Oracle Certified Professional Java SE Developer
- AWS Certified Developer - Associate
