Professional Summary

- Senior Data Scientist with 8 years of experience developing predictive models, experimentation frameworks, and analytics products.
- Skilled in Python, SQL, causal analysis, machine learning, forecasting, and stakeholder-facing data storytelling.
- Experienced in leading data science initiatives across finance, product analytics, and customer growth.

Skills

Languages:

Python, SQL, R

Machinelearning:

Regression, Classification, Forecasting, Uplift Modeling

Statistics:

A/B Testing, Causal Inference, Experiment Design

Libraries:

pandas, NumPy, scikit-learn, XGBoost, statsmodels

Visualization:

Tableau, Power BI, Matplotlib, Seaborn

Work Experience

Senior Data Scientist at AlpineQuant Analytics

Zurich, Switzerland | Feb 2021 - Present

- Built customer lifetime value models used to guide retention and acquisition budget allocation.
- Designed A/B testing frameworks for product experiments and marketing campaigns.
- Mentored analysts on feature engineering, model validation, and experiment interpretation.

Data Scientist at HelioBank Digital

Basel, Switzerland | Jul 2018 - Jan 2021

- Developed credit risk and customer segmentation models using Python and SQL.
- Created executive dashboards for portfolio health and acquisition funnel metrics.
- Partnered with engineering teams to operationalize batch scoring workflows.

Data Analyst at MetricBridge Consulting

Geneva, Switzerland | Aug 2016 - Jun 2018

- Analyzed sales, churn, and campaign datasets for retail and financial services clients.
- Prepared statistical reports and visual dashboards for business leaders.
- Improved recurring SQL reporting logic and documentation.

Projects

Customer Lifetime Value Model

Tech Stack: Python, XGBoost, SQL, Tableau

Built a predictive CLV model with explainable drivers and dashboard-based monitoring.

Experiment Analysis Toolkit

Tech Stack: Python, statsmodels, pandas, Jupyter

Created reusable notebooks for A/B test power analysis, uplift estimation, and result interpretation.

Education

M.Sc. in Statistics - ETH Zurich

Zurich, Switzerland | 2014 - 2016

Certifications

- Advanced Machine Learning Specialization
- Tableau Certified Data Analyst
