Widget Testing, Integration Testing, Manual QA

Work Experience

Flutter Developer at CareWave Mobile

Vancouver, Canada | Mar 2022 - Present

- Built appointment, care plan, and medication tracking features for healthcare mobile apps.
- Implemented offline storage using Hive for patient notes and daily checklists.
- Improved UI consistency by creating reusable Flutter widgets and theme utilities.

Mobile App Developer at MapleLearn Technologies

Calgary, Canada | Jul 2020 - Feb 2022

- Developed Flutter screens for lesson catalogs, quizzes, and learner progress tracking.
- Integrated REST APIs and Firebase Cloud Messaging for student notifications.
- Supported app release validation across Android and iOS devices.

Projects

CarePlan Companion

Tech Stack: Flutter, Dart, Riverpod, Hive

Created a healthcare companion app with medication reminders, care tasks, and offline notes.

LearnLoop Mobile

Tech Stack: Flutter, Firebase, Firestore, REST API

Built an education app with lesson progress, quiz results, and push notifications.

Education

B.Sc. in Software Systems - Simon Fraser University

Vancouver, Canada | 2016 - 2020

Certifications

- Flutter Development Professional Certification
- Firebase for Mobile Applications Certification
