Professional Summary

- Cloud Engineer with 3 years of experience supporting AWS infrastructure, automation, and production operations.
- Skilled in Terraform, Docker, Linux administration, monitoring, and CI/CD implementation.
- Focused on reliable environments, repeatable deployments, and clear operational documentation.

Skills

Cloud:

AWS, Azure basics

Infrastructure:

Terraform, CloudFormation, Linux

Containers:

Docker, Amazon ECS

Cicd:

GitHub Actions, Jenkins

Monitoring:

CloudWatch, Datadog, Grafana

Work Experience

Cloud Engineer at PeakScale Cloud

Denver, USA | Mar 2024 - Present

- Maintained AWS infrastructure for customer-facing SaaS applications.
- Created Terraform templates for VPC, ECS, RDS, and S3 resources.
- Improved alert routing and reduced false-positive operational alerts.

Systems Administrator at FrontRange IT Services

Boulder, USA | Jul 2022 - Feb 2024

- Managed Linux servers, access policies, backups, and patch schedules.
- Automated routine maintenance tasks using Bash scripts.
- Supported migration of internal applications to AWS-hosted environments.

Projects

ECS Service Blueprint

Tech Stack: Terraform, AWS ECS, ALB, CloudWatch

Built reusable infrastructure templates for containerized web services on AWS.

Deployment Monitor

Tech Stack: GitHub Actions, Datadog, Bash

Created deployment status checks and monitoring hooks for release visibility.

Education

B.S. in Information Technology - Colorado State University

Fort Collins, USA | 2018 - 2022

Certifications

- AWS Certified SysOps Administrator - Associate
- HashiCorp Terraform Associate
