Professional Summary

- DevOps Engineer with 5 years of experience automating cloud infrastructure, CI/CD pipelines, and containerized deployments.
- Skilled in AWS, Kubernetes, Terraform, Docker, and monitoring tools.
- Strong focus on reliability, scalability, and developer productivity.

Skills

Cloud:

AWS, Azure

Infrastructure:

Terraform, CloudFormation

Containers:

Docker, Kubernetes, Helm

Cicd:

GitHub Actions, Jenkins, GitLab CI

Monitoring:

Prometheus, Grafana, CloudWatch

Work Experience

DevOps Engineer at CloudForge Systems

Berlin, Germany | Jan 2022 - Present

- Managed Kubernetes clusters supporting microservices in production.
- Reduced deployment time by 50% through optimized CI/CD workflows.
- Built Terraform modules for repeatable cloud infrastructure provisioning.

Cloud Operations Engineer at NetScale GmbH

Hamburg, Germany | Aug 2019 - Dec 2021

- Maintained AWS environments for web applications and backend services.
- Implemented log aggregation and alerting using CloudWatch and Grafana.
- Automated backup, scaling, and environment setup tasks.

Projects

Kubernetes Deployment Platform

Tech Stack: Kubernetes, Helm, Docker, GitHub Actions

Created reusable deployment charts for multiple microservices.

AWS Infrastructure Automation

Tech Stack: Terraform, AWS EC2, RDS, VPC, S3

Built modular infrastructure templates for staging and production environments.

Education

B.Sc. in Computer Engineering - Technical University of Berlin

Berlin, Germany | 2015 - 2019

Certifications

- AWS Certified Solutions Architect - Associate
- Certified Kubernetes Administrator
