Professional Summary

- Game Developer with 4 years of experience building interactive 2D and 3D gameplay systems.
- Skilled in Unity, C#, game physics, UI systems, and performance optimization.
- Experienced in prototyping mechanics, implementing player controls, and preparing builds for desktop and mobile platforms.

Skills

Gameengines:

Unity, Unreal Engine basics

Languages:

C#, C++, JavaScript

Gamesystems:

Physics, AI Behavior, UI, Animation

Platforms:

Windows, Android, WebGL

Tools:

Git, Blender, Photoshop, Unity Profiler

Work Experience

Unity Game Developer at Orbital Play Studio

Barcelona, Spain | Mar 2022 - Present

- Developed gameplay mechanics for puzzle and arcade mobile games.
- Optimized frame rates by reducing draw calls and improving asset loading.
- Implemented in-game UI, reward systems, and level progression logic.

Junior Game Programmer at IndieForge Interactive

Valencia, Spain | Jul 2020 - Feb 2022

- Created character movement, collision handling, and camera systems.
- Built prototypes for experimental mechanics and internal demos.
- Fixed gameplay bugs and supported build testing across platforms.

Projects

Skyline Runner

Tech Stack: Unity, C#, Android SDK

Built an endless runner with procedural obstacles, scoring, and unlockable skins.

Puzzle Forge Arena

Tech Stack: Unity, C#, ScriptableObject

Developed a puzzle combat prototype with turn-based abilities and enemy AI.

Education

B.A. in Game Design and Development - Universitat Pompeu Fabra

Barcelona, Spain | 2016 - 2020

Certifications

- Unity Certified User: Programmer
- Game Design Foundations Certification
