Professional Summary

- Backend Developer with 4 years of experience building secure, scalable APIs and distributed services.
- Skilled in Node.js, Express.js, PostgreSQL, Redis, and event-driven application patterns.
- Experienced in designing REST APIs, optimizing database queries, and improving service reliability.

Skills

Backend:

Node.js, Express.js, REST APIs, Microservices

Databases:

PostgreSQL, MongoDB, Redis

Cloud:

AWS EC2, AWS S3, AWS Lambda

Testing:

Jest, Supertest, Postman

Practices:

API Design, Authentication, Code Reviews, Agile

Work Experience

Backend Developer at LedgerPath Systems

Gurugram, India | Jul 2022 - Present

- Designed REST APIs for payment reconciliation workflows processing thousands of daily transactions.
- Reduced average database query time by 42% through indexing and query restructuring.
- Implemented Redis caching for high-traffic reporting endpoints.

Junior Software Engineer at StackMint Technologies

Noida, India | Aug 2020 - Jun 2022

- Built authentication and user management services using Node.js and JWT.
- Created API documentation that improved frontend integration speed.
- Supported production bug fixes and release validation for SaaS modules.

Projects

OrderBridge API

Tech Stack: Node.js, Express.js, PostgreSQL, Redis

Developed an order processing API with inventory checks, status tracking, and caching.

SecureAuth Service

Tech Stack: Node.js, JWT, MongoDB, Docker

Built an authentication service with role-based permissions and refresh token rotation.

Education

B.Tech in Computer Science - Delhi Technological University

Delhi, India | 2016 - 2020

Certifications

- Node.js API Development Certification
- AWS Cloud Practitioner Essentials
