Practices:

Clean Architecture, Unit Testing, Agile, Code Reviews

Work Experience

Full Stack Engineer at NorthBridge Software

Chicago, USA | Apr 2021 - Present

- Modernized legacy ASP.NET workflows into Angular and .NET Core modules.
- Reduced API error rates by improving validation, logging, and exception handling.
- Built role-based access features for internal finance and compliance applications.

Software Developer at Lakeview Systems

Milwaukee, USA | Jun 2018 - Mar 2021

- Developed business dashboards using Angular, C#, and SQL Server stored procedures.
- Created automated deployment pipelines using Azure DevOps.
- Improved reporting module performance by optimizing SQL queries and indexes.

Projects

ComplianceTrack Portal

Tech Stack: Angular, .NET Core, SQL Server, Azure

Built a compliance management portal with audit workflows, reports, and user permissions.

ServiceDesk Metrics API

Tech Stack: C#, Entity Framework, Redis, Docker

Developed an API for support analytics with cached metrics and filtered reporting endpoints.

Education

B.S. in Computer Information Systems - DePaul University

Chicago, USA | 2014 - 2018

Certifications

- Microsoft Certified: Azure Developer Associate
- C# Advanced Application Development Certification
