Professional Summary

- DevOps Engineer with 5 years of experience automating cloud infrastructure, Kubernetes deployments, and CI/CD workflows.
- Skilled in AWS, Terraform, Docker, Helm, Jenkins, GitLab CI, monitoring, and Linux administration.
- Experienced in improving deployment reliability, environment consistency, and developer productivity.

Skills

Cloud:

AWS, Azure basics

Infrastructure:

Terraform, Ansible, Linux

Containers:

Docker, Kubernetes, Helm

Cicd:

Jenkins, GitLab CI, GitHub Actions

Monitoring:

Prometheus, Grafana, CloudWatch, ELK Stack

Work Experience

DevOps Engineer at Vistula CloudWorks

Krakow, Poland | May 2021 - Present

- Built Terraform templates for AWS networking, compute, database, and logging resources.
- Managed Kubernetes deployments using Helm charts and GitLab CI pipelines.
- Improved incident response by adding dashboards for latency, errors, and resource saturation.

Cloud Operations Engineer at NorthGate Systems

Warsaw, Poland | Jul 2019 - Apr 2021

- Maintained Linux servers, application deployments, backups, and access controls.
- Automated environment setup tasks with Ansible and shell scripts.
- Supported migration of Java services into Docker-based runtime environments.

Projects

Kubernetes Release Platform

Tech Stack: Kubernetes, Helm, GitLab CI, Prometheus

Created a deployment platform with chart templates, release checks, and monitoring dashboards.

AWS Environment Factory

Tech Stack: Terraform, AWS, Ansible, CloudWatch

Built reusable infrastructure modules for staging and production environments.

Education

B.Sc. in Computer Science - AGH University of Krakow

Krakow, Poland | 2015 - 2019

Certifications

- HashiCorp Terraform Associate
- Certified Kubernetes Application Developer
