Professional Summary

- Cybersecurity Analyst with 3 years of experience in vulnerability management, incident response, and security monitoring.
- Skilled in SIEM tools, endpoint alerts, vulnerability scanning, network analysis, and risk reporting.
- Experienced in helping engineering and IT teams prioritize remediation and improve security hygiene.

Skills

Security:

Vulnerability Management, Incident Response, Threat Monitoring, Risk Analysis

Tools:

Splunk, Nessus, Wireshark, Microsoft Defender

Networking:

TCP/IP, DNS, Firewalls, VPN

Compliance:

ISO 27001, NIST CSF, Security Awareness

Scripting:

Python, Bash

Work Experience

Cybersecurity Analyst at SavannaSecure Technologies

Nairobi, Kenya | Jan 2024 - Present

- Monitored security alerts and investigated suspicious endpoint and authentication activity.
- Coordinated vulnerability remediation with infrastructure and application teams.
- Created weekly security risk reports for leadership and technical stakeholders.

Information Security Associate at Kifaru Networks

Mombasa, Kenya | Aug 2021 - Dec 2023

- Performed vulnerability scans and maintained remediation tracking spreadsheets.
- Reviewed firewall logs and endpoint alerts for potential security incidents.
- Supported phishing awareness campaigns and user training documentation.

Projects

Vulnerability Remediation Tracker

Tech Stack: Nessus, Python, SQLite, Power BI

Built a tracker for vulnerability severity, asset ownership, remediation status, and aging reports.

Suspicious Login Dashboard

Tech Stack: Splunk, Windows Logs, MITRE ATT&CK

Created SIEM dashboards for failed logins, impossible travel patterns, and privileged access events.

Education

B.Sc. in Information Security - Strathmore University

Nairobi, Kenya | 2017 - 2021

Certifications

- CompTIA Security+
- Certified in Cybersecurity
