Android Studio, Firebase, Gradle, Git

Work Experience

Android Developer at MercadoMobile Labs

Mexico City, Mexico | May 2022 - Present

- Built Kotlin features for product search, cart management, and order tracking flows.
- Implemented offline caching with Room to improve app reliability under poor network conditions.
- Reduced crash reports by fixing lifecycle bugs and improving API error handling.

Junior Mobile Developer at AzulTech Apps

Guadalajara, Mexico | Jul 2020 - Apr 2022

- Developed login, onboarding, and push notification modules for Android applications.
- Integrated Firebase Analytics and Crashlytics for product usage and stability tracking.
- Supported QA cycles across multiple Android devices and OS versions.

Projects

MarketGo Android

Tech Stack: Kotlin, Jetpack Compose, Room, Retrofit

Built an ecommerce app prototype with saved carts, product filters, and offline browsing.

HealthReminder Mobile

Tech Stack: Kotlin, WorkManager, Firebase, SQLite

Created a medication reminder app with schedules, notifications, and adherence history.

Education

B.S. in Software Engineering - National Autonomous University of Mexico

Mexico City, Mexico | 2016 - 2020

Certifications

- Associate Android Developer
- Kotlin Mobile Development Certification
