Professional Summary

- Full Stack Developer with 5 years of experience designing and delivering scalable web applications.
- Experienced in React, Node.js, PostgreSQL, and cloud deployment workflows.
- Known for writing clean backend APIs, improving frontend usability, and collaborating closely with product teams.

Skills

Frontend:

React, Next.js, TypeScript, HTML, CSS

Backend:

Node.js, Express.js, REST APIs, GraphQL

Databases:

PostgreSQL, MongoDB, Redis

Cloudanddevops:

AWS, Docker, CI/CD

Practices:

Agile, Code Reviews, API Design

Work Experience

Full Stack Developer at BrightLedger Technologies

Austin, USA | Mar 2022 - Present

- Developed customer billing modules used by over 40,000 monthly users.
- Reduced API response latency by 35% through query optimization and Redis caching.
- Built secure authentication flows using JWT and role-based access control.

Software Engineer at NorthPeak Digital

Dallas, USA | Jul 2019 - Feb 2022

- Built internal workflow tools using React, Node.js, and PostgreSQL.
- Created automated CI pipelines that reduced deployment errors.
- Collaborated with designers to improve accessibility and mobile responsiveness.

Projects

InvoiceSync Platform

Tech Stack: Next.js, Node.js, PostgreSQL, Stripe API

Built a subscription billing system with invoice generation and payment tracking.

TeamBoard API

Tech Stack: Express.js, MongoDB, JWT, Docker

Developed a project collaboration backend with authentication and team permissions.

Education

B.S. in Software Engineering - University of Texas at Dallas

Dallas, USA | 2015 - 2019

Certifications

- AWS Certified Cloud Practitioner
- MongoDB Developer Associate
