Professional Summary

- iOS Engineer with 6 years of experience building native mobile applications for travel, retail, and productivity domains.
- Skilled in Swift, SwiftUI, UIKit, Combine, Core Data, API integration, and App Store release operations.
- Experienced in improving app stability, modernizing legacy screens, and mentoring junior mobile developers.

Skills

Mobile:

Swift, SwiftUI, UIKit, iOS SDK

Architecture:

MVVM, Coordinator Pattern, Clean Architecture

Appleframeworks:

Combine, Core Data, MapKit, CloudKit

Testing:

XCTest, XCUITest

Tools:

Xcode, TestFlight, Fastlane, Git

Work Experience

iOS Engineer at TravelNest Japan

Yokohama, Japan | Apr 2021 - Present

- Built SwiftUI itinerary and booking features for a travel planning application.
- Reduced app crash rate by improving async API handling and state management.
- Mentored junior developers on SwiftUI migration and unit testing practices.

Mobile Developer at Kanto Digital Works

Tokyo, Japan | Jul 2018 - Mar 2021

- Developed UIKit screens for loyalty, coupon, and store locator workflows.
- Integrated MapKit, push notifications, and secure API authentication.
- Supported TestFlight testing, release notes, and App Store submissions.

Projects

TripCanvas iOS

Tech Stack: Swift, SwiftUI, MapKit, Combine

Created a travel planner with itinerary maps, saved places, and schedule reminders.

CouponWallet App

Tech Stack: Swift, UIKit, Core Data, REST API

Built a retail coupon app with offline saved offers and location-based store details.

Education

B.E. in Computer Science - Yokohama National University

Yokohama, Japan | 2014 - 2018

Certifications

- App Development with Swift Certification
- Advanced iOS Architecture Certification
